Discover the OUTPOD™ by TEMO

The electric propulsion solution for sailboats.

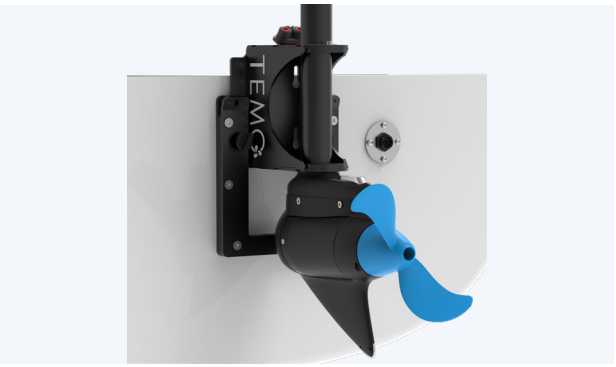

Available in 500 W, 1 kW and 3 kW, the OUTPOD™ is an integral part of the SEASIDE range, TEMO's modular electric ecosystem. It combines the advantages of an electric pod and the simplicity of an outboard motor.

DESIGNED FOR SAILBOATS

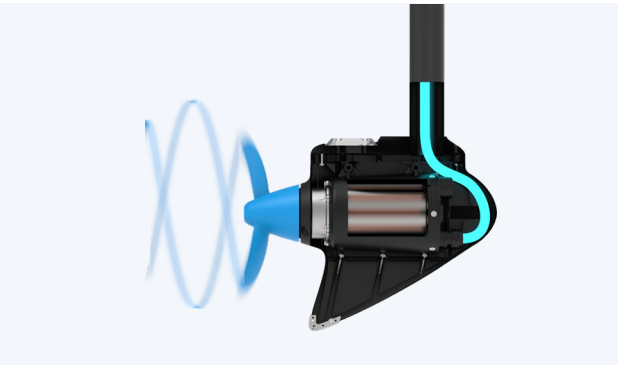

› Ideal solution for sailboats up to 9m
› Vertically tiltable, 180° rotating
› Minimal bulk and very compact
› Easy to install out of the water in a few seconds to prevent fouling, electrolysis, and drag under sail

QUICK INSTALLATION

› Plug & Play system for a quick installation
› Lightweigh installation (12kg for the 1000OUTPOD™)
› Easily removable for storage and maintenance
› Watertight front connector

HIGH-PERFORMING

› Minimal maintenance up to 1,500 hours of use
› Brushless motor thanks to mechanical seals
› Completely waterproof (IP68)
› Intelligent motor power management to preserve battery lifespan
› Compatible with hydrogeneration and solar panels

CUSTOMIZABLE RANGE

› Sensitive components (batteries, control, cables) remoted inside for a better weight distribution and increased longevity
› Rackable and parallelizable TEMO battery pack
› Semi-open system compatible with partner batteries
› Customizable range

CHOOSE A FRENCH PROPULSION SYSTEM MADE FOR YOUR NEEDS COMBINING THE ADVANTAGES OF AN OUTBOARD MOTOR AND A POD DRIVE.

MULTIPLE POWER OPTIONS AVAILABLE

500 OUTPOD

Static thrust: 12kg
Propeller rotation: /
Weight: 6kg
Torque: /

1000 OUTPOD

Static thrust: 30kg
Propeller rotation: 1400rpm
Weight: 12kg
Torque: 6.25N.m

3000 OUTPOD

Static thrust: 67kg
Propeller rotation: 1450rpm
Weight: 19kg
Torque: 16N.m

ON-DEMAND ELECTRIC SOLUTIONS

TEMO BATTERIES

Choose a secure, intelligent and connected system that includes rackable portable batteries.

PARTNER BATTERIES

Choose your battery pack from a selection of partner brands, for a semi-open system.

CUSTOM

TEMO offers systems without batteries to adapt to your existing battery pack.

PERFECT ERGONOMICS FOR A COMPLETE SYSTEM

TEMO THROTTLES

Control your motor with ease. The remote throttle integrates seamlessly into your helm station.

TEMO DISPLAY

Clear and high-performance, TEMO displays provide all essential information instantly.

CHARGERS

The 48V charger recharges TEMO batteries. It effectively protects the system against overcharging and short circuits.
(Available in home/onboard and standard/fast versions.)

PLUG & PLAY INSTALLATION

Each TEMO system is delivered ready to install and CE certified.

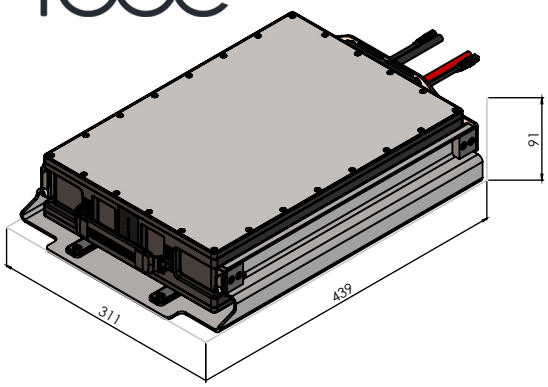

48V

All our systems are designed to operate at 48V, ensuring easier and safer complete installation.

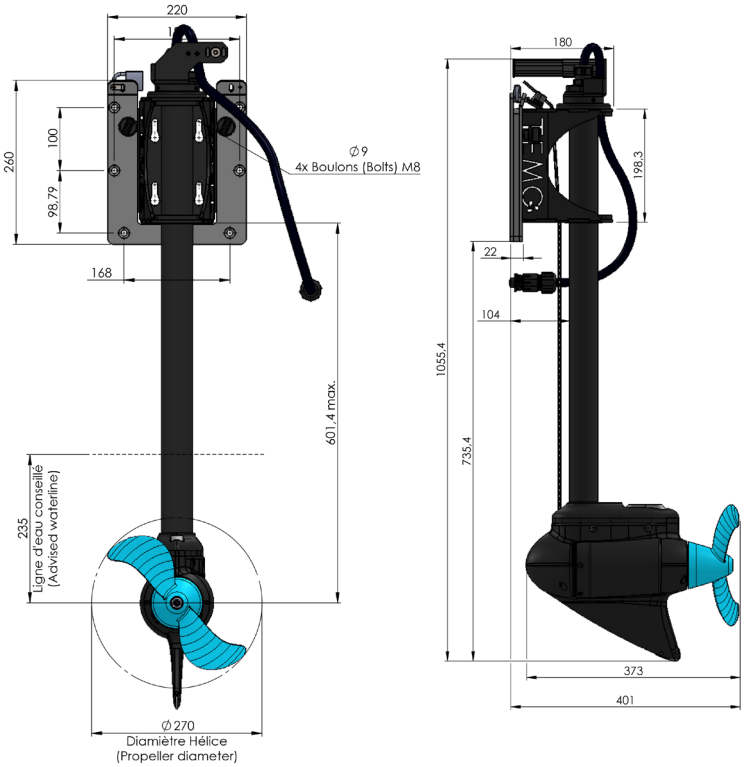

SOLAR AND HYDROGENERATION COMPATIBLE.

TEMO is committed to developing solutions that optimize onboard energy management.

System 1000 OUTPOD

Batteries examples	Weights	Range (at 1300W)
2,3 kWh TEMO battery with auto-connect rack	12 kg	1h45
Stationary battery Powertech (Powerbrick - 48 V/32 Ah 1640 Wh)	13,5 kg	1h15
